

DUTCH FLAT ENQUIRER.

SATURDAY, JAN. 11, 1868.

A TERRIBLE ACCIDENT AND LOSS OF LIFE.—On Wednesday last, one of the most terrible accidents that we have been called on to chronicle for some time, occurred at You Bet, in the Brown Brothers Mill. The particulars of the horrible affair, as near as we could find out are as follows: It seems that the elder of the Brown Bros. George, who was superintendent of their Mill, went upon an inclined plank beside the hurdy wheel, for the purpose of oiling some parts of the machinery, when he slipped from the plank, which was covered with ice, and fell against the shaft of the hurdy wheel, and his clothing catching on a key, which was driven through the shaft, he was whirled around at a fearful rate; the engine was at the time making nearly one hundred and fifty revolutions per minute. His legs were beaten off up to his knees, and the rest of his body was mashed to a jelly. The man who was feeding, noticed that the speed of the stamps had decreased, but at first supposed that it was caused by a car load of dirt being hauled up; but observing finally that the car was not coming up, he started to find out the cause, when to his dismay, he found poor Brown's body flying around on the hurdy shaft as above stated. By the time the Mill could be stopped, and his body removed from the shaft, life was extinct. To Mr. E. B. Hopkinson, our accommodating Expressman, we are indebted for the above particulars.

BOOKS.—Mr. Chas. Fisher is in town canvassing for subscribers to the following books: "The Secret Service, The Field, the Dungeon, and the Escape. An Historical work by Albert D. Richardson, one of the Colfax party. It is a complete compilation, of the Authors from years experience in the "Secret Service of the Middle States." Illustrated with nineteen beautiful steel plates, and cuts. It contains 512, octavo pages printed on fine paper in beautiful new type. It is bound in calf. It is well worth the price of it, \$4.50. The work is highly spoken of by the most eminent men of the country. He is also the Agent for this country, for J. T. Headley's History of the Rebellion, a work which has been acknowledged as the most complete, and impartial work on the late Civil War, ever published, giving all the events as they transpired, or nearly so as possible. It contains 1200 neatly printed pages, and contains 7 splendid steel plate engravings. It is bound in calf. Price \$6.50. He also has a muslin bound volume entitled the "Lives and Portraits of the Presidents." It gives a complete biography of all Presidents of the United States, from Washington to Johnson. Price \$7.00. Our people should not fail to avail themselves of this opportunity to add these splendid works to their library.

THE PACIFIC COAST ALMANAC AND YEAR BOOK OF FACTS FOR 1868.—We are indebted to the compiler and publisher, Mr. Henry G. Langley for a copy of this valuable and complete work. It is a compilation of facts unsurpassed by any work of similar nature ever published on this coast. Among the important features of the work, we will mention the proposed Amendments to the Constitution; Civil Rights Bill; Tenure of office Bill; How to secure public Lands; Land Laws of California; National Bankrupt Law; Post offices on the Pacific coast; Area, and population of the United States; Stamp Duties—United States, and California Chronological History of events; etc. The reputation of its compiler is enough to recommend it to the public. Price 50 cts.

NARROW ESCAPE.—On Thursday morning at an early hour, about five o'clock, Messrs. R. Egbert and E. J. Brickell were walking on the gangway platform of the steamer Capital just as a heavy truck was being drawn up on the levee, when the rope attached to the truck broke, the letting truck go down to the boat "by the run." The gentlemen saw their danger and endeavored to get out of the way, but a heavy piece of iron which projected from the truck, struck Mr. Brickell on the left thigh, tearing his clothes and inflicting a painful wound. We are happy to learn that when our informant left Sacramento Mr. B. was able to be around.

THE NEW DEMOCRATIC PAPER to be named the *State Capital Reporter*, will make its appearance to-morrow, and we will probably have an opportunity of seeing it on Monday. It will be about the size of the Sacramento Union, and will of course command the best talent in the State. Well, we can stand an open foe, and if not spoken, respect him, but deliver us from those who pretend to support our cause, and in time of need desert us.

ACCIDENT.—Sam Patch, the conductor on the snow plow between Cisco and Emigrant Gap, was thrown from the top of the plow, at the East end of the tunnel at Emigrant Gap; and strange to say, he was not missed until the engine reached Cisco. The engine was immediately sent back to search for him. He was found at the point above stated, all right with the exception of a slight contusion.

NEW COUNTY.

We learn from reliable sources that there is a project on foot, the object of which is to have a new county set off from portions of Sierra, Nevada, Placer and El Dorado. Looking at the matter from our standpoint, we consider that no better move could be made. The enormous expense of those living in the northeastern portion of our county has long been a source of dissatisfaction. Our county line commences at or near the Sacramento on the southwest, and runs to the State line over the Sierra Nevada mountains, a distance of some, thing like a hundred and thirty or forty miles, compelling those who reside in the upper portion of the county to travel some eighty or one hundred miles to the county seat whenever they have business to transact with the county officers, involving great pecuniary expense besides the consumption of valuable time. We are satisfied that those living in the lower portion of our county will agree almost unanimously, if necessary, in signing a petition for the creation of a new county. The line of the new county, we hear, is to start somewhere near Sierra Valley, in Sierra county, and run about southeast, taking in a portion of Meadow Lake District in Nevada county; continuing, takes township No. 11 in this county, and that portion of El Dorado county bordering on Lake Tahoe, making a county some forty miles long by about thirty wide, and leaving the others in a better shape, and enabling the citizens of each to have easy access to their several county seats. Of course the new county will assume its pro-rata share of our railroad indebtedness, taking probably some twenty-five thousand dollars of the bonds. We hear of no unfriendliness to this move; on the contrary, our neighbors at Cisco and on the line of the road are zealous in their advocacy of the measure, and we know of no good reason why their wishes in this respect should not be complied with. We also learn that the people in the upper portions of Sierra and Nevada counties are equally favorable to the move, and that the names of almost all the tax-payers in the districts mentioned have been obtained for this purpose. The petition will shortly be presented to the Legislature, and will doubtless be granted at an early day. We will endeavor in our next to present a statistical view of this matter, showing that the assessable property in the several districts proposed for the new county will be amply sufficient to sustain a county government, provided there is an economical administration of affairs. The name proposed for this new county is ALTA, and a most appropriate one too; it will have all the advantages of a high.

LETTER FROM SACRAMENTO.

SACRAMENTO, JAN. 9th, 1868.
EDS. ENQUIRER:—The Bee says bosh! the Record says bosh! and the Union joins its trumpet tone to the same musical exclamation. They defy Giltner and his hosts, who Sampson like, are about to take hold of the pillars of the Capitol, raze it to the earth, and rebuild in San Jose a structure which will not only serve the present but all future generations. All the papers here have declared that the levee system is perfect and complete, that the city is secure against the possibility of inundation, but the proposition to remove the State Capitol opens their eyes. They suddenly discover the necessity of constructing a cross levee, and in an irresponsible way over that the Railroad Co. is ready and anxious to construct it. It is not true that Giltner is alone in this matter; many of the leading members of the Assembly warmly and earnestly advocate the removal. The reasons assigned are various, but no doubt the late floods in connection with the fact that the channels of the Sacramento and the American rivers are filling up yearly with sedimentary deposits from the mountains, have had much to do in originating the question. Then the crack in the walls argue an insecure foundation, unable to support the immense weight to be put upon it; the horrible muddy condition of the streets during the winter; a lack of energy shown in some portions of the city to keep crossings in a passable condition, and last, though not least the habit, the citizens have acquired of making a good thing out of all the public gatherings at this place. It seems that the avaricious hotel keepers have congregated here and their efforts to make enough during the session of the Legislature are exorbitant. A respectable meal at a restaurant costs a dollar and half, and a genteel single room twenty to twenty-five dollars per month—while a suit costs from forty to seventy-five dollars, and the manner in which some of those charges are made and collected would put Old Shylock himself to shame. Let the citizens of Sacramento treat their visitors respectfully and charge them but living rates and they need have no fear of the result.

Captain Rollins' Bill providing for a reduction of fare and freight on the various railroads in the State, is creating quite a stir among the railroad men. It provides that it shall be unlawful for companies to charge and collect more than five cents per mile for passengers fare and ten cents a ton per mile for freight. It is possible there are roads in the State which would not pay at those prices, and justice to the companies demands that the act be not passed without full deliberation. Experience has proved that railroads do not pay a large percentage on cost of construction, but having become a public necessity, sufficient aid is granted by the government to insure construction and the transportation of passengers and freight at lower rates than could be done were they constructed by the companies alone. Yesterday was a national holiday, at least so said the Legislature which adjourned in honor of Andrew Jackson or New Orleans I am not certain which.

The Black Crook is being played at the Metropolitan to the only good houses known this winter.

A LOPHER.

THE STATE CAPITOL.

The movement of Giltner, of Mariposa, in the House for the removal of the State Capitol from Sacramento; seems to us to be one of the most uncalculated, and injudicious, propositions that we have ever heard of being presented to a legislative body; or private assembly, by any sane man. The utter folly, of such a movement is so apparent, that any man with the brains of an ass would vote against it; unless influenced by mercenary motives of some kind, on the ground of its having already been the State Capitol for so great a length of time, if for no other. When, however, we consider the fact, that the City of Sacramento, is the most central place; the easiest of access to the residents of all portions of the State, the proposition assumes an attitude, still stronger in favor of the retention of the State Capitol where it now is. Sacramento by virtue of its position, as the terminus of the Great Central Pacific Railroad, and the California Central Railroad, and being in daily communication with San Francisco, by a line of splendid Steamers, seems to be the only fitted point, for the important position of Capitol, of so wealthy a State as California. Already has large sums of money been expended, for the erection of a State House, which will be completed in the course of another year. If the Capitol is removed to another point it will entail an additional, burthen of taxation on the people of the State, as land will have to be purchased, and new buildings erected, and the immense cost attending the construction of State Houses is too well known to the citizens of this State. There are too many axes to grind, the people of the State cannot longer stand such high-handed, proceedings with out murmuring their disapprobation. Nearly three quarters of a million of dollars have already been expended on the New Capitol building at Sacramento, and if it is now to be abandoned to "bats and owls" because, forsooth, some member or members of the Senate or Assembly, are afraid they will catch cold by getting their feet wet in Sacramento mud, we would advise, rather than entail such a burthen on the tax payers of the State, as must result from such removal that they resign, for there are hundreds of men fully as competent to fill the position that they occupy, who would be willing to serve the people, at any point most convenient for them, for the moderate per diem of ten dollars, though it were a little disagreeable. We cannot see what benefit there is to be derived from such a move. Had the question of removal been agitated before the commencement of building of the Capitol at Sacramento, then we should not have opposed it so strenuously; as it is we must enter our solemn protest against any such actions. We are in hopes that the papers of the mountain counties, will do their duty on this important subject. Do not let yourselves, who compose the majority of the State be discommoded for the gratification of the minority.

The Gold Run Amateur Association, gave their first entertainment at that place on Monday evening last. We are informed that the performance was good and well attended. We also understand that they will favor us the coming week with one of their excellent entertainments.

SLEIGHING.—During the past week our townspeople, (a portion of them) have been enjoying themselves by participating in this pleasant, and agreeable pastime. The merry jingle of the Sleigh Bells, remind us of the good old times, when we were young.

A CHANGE.—Messrs Greeley and Downer, as will be seen by a card in another column, have taken charge of the Golden Eagle saloon. They design making it a first class place of resort; and those desiring a first class drink should give them a call.

Snow.—We have been having a feast in the shape of a Snow Storm, not a raging storm, but a poetical one; when the snow falls noiselessly upon everything, covering the earth with a mantle of spotless white. About eight inches has fallen, and still continues to fall as we go to press.

RESIGNED.—M. D. Boruck, Esq., who has up to the present time been officiating as assistant Clerk in the Assembly, resigned his position on Tuesday last, the influences brought to bear on Mr. Boruck were weighty indeed, and the old Roman finally had to succumb.

ALL RIGHT.—We are glad to learn that the Central Pacific Railroad Company have, after great exertion, and most praiseworthy energy, succeeded in completing the repairs on the road sustained from the late flood, and now passengers are taken to Sacramento on time.

COLD.—We learn from private sources that the weather at Sacramento has been bitter cold since Sunday last. On Tuesday last the mud on the East side of J Street remained frozen till 12 o'clock, A. M.

ASTROLOGY.—Tripping down

the stair way once long ago, we fell, shattering a large, lighted fluid lamp. In a moment the blaze wrapped us around like a fiery serpent. Every tragedy has a comic side: Bridget tossed the lamp on the bed, and ran for water; aunt Mary seized the spread to extinguish the flames and pulled baby down on the floor; Jane came up from the kitchen and put out every light then burning "because the house was afire," and Bridget returning with a tub of water, tumbled down, upset the water, and bumped her nose. Meanwhile, we rolled over and over on the parlor floor, till the flame was extinguished, when one arm was found to be terribly burned.

ALLEN'S LUNG BALSAM.

The Remedy for Curing Consumption, Asthma, Croup, Diseases of the Throat, Bronchitis, Pains and Oppressions of the Chest or Lungs, Difficult breathing, and all Diseases of the Pulmonary Organs.

It is action is expectorant, alterative, sudorific, diaphoretic, and diuretic, which renders it one of the most valuable remedies known for curing diseases of the lungs. It excites expectoration, causes the lungs to throw off the phlegm; CHANGES THE SECRETIONS and PURIFIES THE BLOOD; heals the irritated parts; gives strength to the digestive organs; brings the liver to its proper action and increases the strength to the whole system. It is warranted to give entire satisfaction, even in the most desperate cases of consumption, and to produce cohesiveness (as do most remedies) to effect the cure, as it contains no opium in any form. It is PERFECTLY HARMLESS to the most delicate child, although an active and powerful remedy for restoring the system. There is no necessity for so many deaths by consumption, when ALLEN'S LUNG BALSAM will prevent it, if only taken in time.

DUTCH FLAT ENQUIRER.

A YEAR OR TWO AGO.

I've wandered near the gin mill, Tom,
The gin mill on the hill,
Where everything looked so gay
But now looks dark and still.
The shutters were up, dear Tom,
The sign swung to and fro,
Its creaking sounds just as it did
A year or two ago.
You know, dear Tom, we often spent
Some happy hours there;
Both you and I drinking, Tom,
We counted pretty fair,
We always used to "hand it up,"
We never paid, you know;
Oh then were jolly times we had
A year or two ago.
You know the man who kept it, Tom,
McGinness was his name,
He always used to treat us right,
Both you and I the same;
But now he's dead and gone, dear Tom,
And in his grave he laid
We can't "lick" him as we used
A year or two ago.
On Sunday night, some time ago,
As we sat drinking gin,
Somebody tapped upon the door,
And said, "Come let me in."
It proved to be the Excelsior,
And Mac was caught up, you know,
His license then they did revoke
A year or two ago.
When Mac found out the Excelsior
Wouldn't license him again,
He took to drinking and died quite soon
With Bourbon on the brain;
And now the place is closed dear Tom,
The pigs roam in the yard,
All through the spot where we got tight
A year or two ago.

SHOCKING.—In New Jersey, many years ago, a good hearted man and his long-tongued style-talking wife, attended a social party. Almost every three minutes his wife would say to her husband thus:

"Now, William, don't lean back in your chair in that way."
"Now, William, don't talk so loud."
"Now, William, don't get noisy over there."

"Say, William, let the girls alone and sit by me."
At last forbearance ceased to be a virtue, and the husband, who was really pitted by all in the room, arose and said:

"I beg pardon of the company, but as my wife insists on being boss all the time, it is right she should have these." And he deliberately took off his pants and handed them to his wife, and then sat down in his boots and drawers.

NEW QUICKSILVER MINES.—The Napa Register says: "That, should no accident intervene, the Pope Valley Quicksilver Works will be in full operation by the middle of January. There is considerable enough already out to supply the works for several weeks, and plenty more in sight. The necessary buildings are already erected, and a large supply of wood is in readiness on the ground."

THE Treasury building at Washington when completed will have cost nearly \$5,000,000, and it will be the finest Executive building in the world. The greater portion of it is built of Maine granite, and it is proposed to rebuild the remainder with the same material, as the porous sand-stone of which it is constructed is disintegrating rapidly.

It may not be generally known, that it is the practice on every steamer and sailing vessel in passing by Mt. Vernon, to slowly toll a bell in respect for the memory of the great Washington who lies there buried. May this poetical tribute to departed worth be paid for centuries to come.

THE old Romans paid special honors to agriculture, as did the Jews. Their coin was stamped with symbols connected therewith. The Greeks refreshed the mouths of their plowing oxen with wine. Charles the Ninth exempted from arrest for debt all persons engaged in the cultivation of the staple articles of agriculture.

OLD VOLCANOES.—It is said that there are three extinct volcanic craters near Red Mountain City, in Montana, which are so deep that the light is entirely excluded from their depths, and that when a stone is thrown into them no sound can be heard of its reaching the bottom.

TO THE AFFLICTED.

Dr. W. K. DOHERTY returns his sincere thanks to his numerous patients for their patronage, and would take this opportunity to remind them that he continues to consult at his Institute for the cure of chronic diseases of the Lungs, Liver, Kidneys, Digestive and Genito-Urinary Organs, and all private diseases, viz: Syphilis in all its forms and stages, Seminal Weakness, and all the horrid consequences of self-abuse, Gonorrhea, Gleet, Stricture, Nocturnal and Diurnal emissions, Sexual Debility, Diseases of the Back and Loins, Inflammation of the Bladder and Kidneys, etc., etc., and he hopes that his long experience and successful practice will continue to enable him to share of public patronage. By the practice of many years Europe and the United States, he is enabled to apply the most efficient and successful remedies against diseases of all kinds. He uses no mercury, charges moderate, treats his patients in a correct and honorable way, and has references of unquestionable veracity from men of known respectability and high standing in society. All parties consulting him by letter or otherwise, will receive the best and gentlest treatment, and implicit success.

TO FEMALES.

When a female is in trouble, or afflicted with disease as weakness of the back and limbs, pain in the head, dimness of sight, irregular powers, palpitation of the heart, irritability, nervousness, extreme urinary difficulties, derangement of digestive functions, general debility, vaginitis, all diseases of the womb, hysteria, sterility and all other diseases peculiar to females, she should go or write at once to the celebrated female Doctor, W. K. DOHERTY, at his Medical Institute, and consult him about her troubles and disease. The Doctor is effecting more cures than any other physician in the State of California. Let no false delicacy prevent you, but apply immediately and save yourself from painful sufferings and premature death. Ladies who are afflicted with delicate health or other circumstances prevent an increase in their families should write or call at Dr. W. K. DOHERTY'S Medical Institute, and they will receive every possible relief and help. The Doctor's offices are so arranged that he can be consulted without fear of observation.

TO CORRESPONDENTS.

Patients residing in any part of the State, however distant, who may desire the opinion and advice of Dr. DOHERTY on their respective cases, and who think proper to submit a written statement of such, in preference to holding a personal interview, are respectfully assured that their communications will be held most sacred. Dr. DOHERTY takes this opportunity of observing, that all letters are opened only and replied to by himself, and the latter as promptly as possible. If the case be fully and candidly described, personal communication will be unnecessary, as instructions to self, reason, and the general treatment of the case (including the remedies) will be forwarded without delay, and in such a manner as to convey no idea of the purport of the letter or of the person consulted. Consultation by letter or otherwise, FREE. Permanent cure guaranteed or no pay. Address, W. K. DOHERTY, M. D., San Francisco, California.

Spermatorrhea.

Dr. DOHERTY has just published an important pamphlet, bearing his own views and experiences in relation to Impotence or Virility, being a short treatise on Spermatorrhea or Seminal Weakness, Nervous and Physical Debility consequent on this affection, and other diseases of the Sexual Organs.

This little work contains information of the utmost value to all, whether married or single, and will be sent FREE by mail on receipt of six cents in postage stamps for return postage. Address, W. K. DOHERTY, M. D., San Francisco, Cal.

A CARD FROM THE AMERICAN WATCH COMPANY

Of Waltham, Mass.

This Company beg leave to inform the public that they commenced operations in 1850, and their factory now covers four acres of ground, and has cost more than a million dollars. They employ over 200 operatives. They produce 75,000 Watches a year, and make and sell not less than one-half of all the watches sold in the United States.

The difference between their manufacture and the European, is briefly this: European are made almost entirely by hand, and the result is of necessity a lack of that uniformity, which is indispensable to correct time-keeping. Both the eye and the hand of the most skillful operative must vary. But it is a fact, that except watches of the higher grades, are the product of the cheapest labor of Switzerland and the result is the worthless Ankers, Lepines and so-called Patent Levers—which cost more in attempted repairs, than their original cost. Common workmen, boys and women, buy the rough separate parts of these watches from various factories, polish and put them together, and take to the nearest watch merchant, who stamps and engraves them with any name or brand that may be ordered.

How American Watches are made.

The American Waltham Watch is made by no such uncertain process—and by no such incompetent workmen. All the Company's operations, from the reception of the raw materials to the completion of the watch, are carried on under one roof, and under one skillful and competent direction. But the distinguishing feature of their watches, is the fact that their several parts are all made by the finest, the most perfect and delicate machinery ever brought to the aid of human industry. Every one of the more than a hundred parts of every watch is made by a machine—that infallibly reproduces every succeeding part with the most unvarying accuracy. It was only necessary to make one perfect watch of any particular style and then to adjust the hundred machines necessary to reproduce every part of that watch, and it follows that succeeding watches must be like it.

The Company respectfully submit their watches on their merits only. They claim to make

A Better Article for the Money

by their improved mechanical processes than can be made under the old fashioned handicraft system. They manufacture watches of every grade, from a good, low-priced and substantial article, in solid silver hunting cases, to the finest chronometer; and also ladies' watches in plain gold or the finest enamel and jewel cases, with the indispensable requisite of all their watches is that they shall be GOOD TIME-KEEPERS. It should be remembered that, except their single lowest grade named the "Home Watch Company, Boston," ALL watches made by them

ARE FULLY WARRANTED

by a special certificate, and this warranty is good at all times against the Company or its agents.

MEDICAL.

THE SCIENCE OF HEALTH!

Every Man His Own Physician.

HOLLOWAY'S PILLS.

AND

HOLLOWAY'S OINTMENT!

Disorders of the Stomach, Liver and Bowels.

The Stomach is the great centre which influences the health or disease of the system. Abused or debilitated by excess—indigestion, offensive breath and physical prostration are the natural consequences. All the organs of the system sympathize with it. The Liver becomes affected and generates bilious disorders, pains in the side, &c. The Bowels sympathize with Costiveness, Diarrhea and Dysentery. The principal action of these Pills is on the stomach, and the liver, lungs, bowels and kidneys participate in their recuperative and regenerative operation.

Erysipelas and Salt Rheum,

Are two of the most common and virulent disorders prevalent on this continent, to these the Ointment is especially antagonistic. Its "modus operandi" is first to eradicate the venom and then complete the cure.

Bad Legs, Old Sores, and Ulcers.

Cases of many years' standing, that have previously refused to yield to any other remedy or treatment, have invariably succumbed to a few applications of this powerful unguent.

Eruptions on the Skin.

Arising from a bad state of the blood of chronic diseases, are eradicated, and a clear and transparent surface regained by the restorative action of this Ointment. It surpasses many of the most celebrated Ointments, and is in its power to dispel rashes and other disfigurements of the face.

Female Complaints.

Whether in the young or old, married or single, at the dawn of womanhood, or in the decline of life, these tonic medicines display so decided an influence that a marked improvement is soon perceptible in the health of the patient. Being a purely vegetable preparation, they are a safe and reliable remedy for all classes of Females in every condition of health and station of life.

Piles and Fistula.

Every form and feature of these prevalent and agonizing disorders is eradicated locally and entirely by the use of this emollient; warm fomentations should precede its application. Its healing qualities will be found to be thorough and invariable.

Both the Ointment and Pills should be used in the following cases:

Blisters, Piles, Rheumatism, Sore Breasts, Chills, Ringworm, Sore Heads, Fistula, Salt Rheum, Sore Throat, Scalds, Ulcers, Stiff Joints, Lumbago, Skin Diseases, Venereal Sores, Swellings of all kinds, Wounds of all kinds.

CAUTION.

None are genuine unless the words "HOLLOWAY'S PILLS AND OINTMENT" are discernible as a Water Mark in every leaf of the book of directions around each pot or box; the same will be plainly seen by holding the leaf to the light. A handsome reward will be given to any one rendering such information as may lead to the detection of any party or parties counterfeiting the medicines or vending the same, knowing them to be spurious.

REMOVAL.

DR. TOZER,

Formerly of Lock Hospital, London.

Would most respectfully call the attention of the public of San Francisco and vicinity to the fact that he has removed his MEDICAL INSTITUTE from the corner of Jackson and Kearny streets, to

108 MONTGOMERY STREET,

Adjoining Occidental Hotel,

Where he will be in attendance daily to administer to the wants of all those who may require his services.

It is impossible here to mention all the diseases with which he is familiar; some, perhaps, will not be out of place. The most formidable, the most destructive to mankind is Self-Abuse. The brain being the seat of the disease, the whole system suffers in consequence. I will guarantee a cure of the symptoms, so that those afflicted may be able to form an opinion in regard to their complaints and seek advice in time, thereby saving themselves a world of suffering.

STRUCTURE OF THE URETHRA

Is another formidable enemy to health. Send for one of my circulars on that disease, and inform yourselves of its terrible results. The worst cases cured in a few days.
